

Unmatched Quality

Gemini's abilities in new construction — be it traditional design/bid/build or the fast-growing design/build process — are unmatched. Focused on electrical projects from \$300,000 to \$2 million, the company's goal-oriented approach and ability to quickly adjust to the ever-changing demands of a project are what set it apart from its competition.

Projects to \$3 million...

- Commercial
- Industrial
- Healthcare
- Retail
- Institutional
- Municipal
- Restaurant
- Hotel

Services...

- Fire Alarm Systems
- Voice/Data FibreOptics
- Energy Management Systems
- Secondary Voltage

Licensed in Maine, Massachusetts, and New Hampshire

Fire alarm systems, data cabling, telephone wiring, energy management systems, secondary voltage — Gemini performs all this work with its own personnel — no subcontractors. That translates to better quality control and flexibility.

Fast track construction is a specialty, but quality is never sacrificed for speed. Project over budget? Gemini's superb value engineering skills can save money without forfeiting function.

It's for these reasons, and a veteran staff that understands the value of teamwork and cooperation, that Gemini is the preferred electrical contractor of many of the region's most respected general contractors. These select GCs appreciate working with the best and knowing their schedules will unfailingly be met.
